2. INSTALLATION AND SELF-INSPECTION OF SPEAKERPHONE

To ensure normal the use of a speakerphone, please do not install the speakerphone at the following locations:

1. Where there is high noise, the speakerphone may pick up the noise, and when you talking, it will prevent the speakerphone to enter the receiving mode.

2. The surface of the speakerphone will be scratched by vibration.

3. Do not place items within 60 cm of the speakerphone.

4. Please use the power adapter provided by the product to avoid accidents.

Installation steps:

1. If you need to talk over a USB cable, connect one end of the USB cable to the USB port of the device and the other end to the USB port of the speakerphone.

2. If you need a LINE IN/LINE OUT to call,please connect one end of the 3.5mm analog audio LINE to the LINE IN/LINE out port of the video conferencing terminal and the other end connect to the IN/OUT port of the speakerphone.

3. When choosing to install two extension microphones, use the extension microphone connector to connect the speakerphone EXT1, EXT2 port.

Speakerphone self-inspection

Once the speakerphone is energizing again, it will start the automatic detection program. At this time, the working status indicator will flash red, blue and green three times in sequence.

HOW TO USE SPEAKERPHONE

Connection Steps for USB

1. You can connect the power supply equipment with the original power adapter (Wireless/BluetoothSpeakerphone equip) or connect one end of the USB cable to the USB port of the PC and video conference system, and connect the other end to the speakerphone.

2. Turn on the power button after the connection was confirmed correct.And wait for the speakerphone self-check completed.

3. It will take a few seconds to install the driver automatically for the first setup.Turn on the terminal . Third-party conference software, and select the microphone and speaker driver to start the audio and video conference with the device.

Common reference Settings for PC and video devices with USB talking mode:

1. Please adjust the volume of horns and microphones comprehensively to ensure the communication is clear and smooth.

2. Don't turn on the speaker and microphone automatic gain.

3. Give priority to turning off the audio processing functions of the PC software/video soft ware (such as turning off automatic gain, echo cancellation, noise , reduction etc.)

4. Please use those speeches coding that has a higher sound quality as far as possible.

Bluetooth pairing (Bluetooth Speakerphone apply)

Once paired with a Bluetooth device, you can use the speakerphone for audio call.
To pair your Bluetooth device with the speakerphone, follow steps below:

1. Press and hold the " � " button until the Bluetooth Indicator flashes green light. The speakerphone is under Bluetooth pairing mode.

2. Turn on the Bluetooth function of the mobile phone and click search.

3. Search with your Bluetooth device and connect.

4. When the Bluetooth was set up,the Bluetooth indicator will keep ligh ng on.Then you can use the speakerphone for audio call.

5. Press the " ✻ " button to turn off Bluetooth.
Note: when Bluetooth fails to match, Bluetooth needs to be restarted

In/ Out Connection

Use a 3.5mm 4-strand cable to connect your phone or PC device to the "I/O" port of the speakerphone.

If the device connection port is a 3.5mm 3-strand port, you need a transfer adapter for connectting.Insert audio transfer plug into the "I/O" port of Speakerphone.
Connect the microphone port and speaker port of Audio Transfer plug to the IN/OUT port of the PC or video conferencing system with two 3.5mm 3-strand cable.

Note: Please set the phone LINE IN/OUT mode to "PC Mode"when the device is PC or video devices. Or set the phone LINE IN/OUT mode to "Mobile Mode" while connectting a smartphone.

Installation and Use of Optional Extension Microphone

Use an expansion microphone for important and large meetings.

1. Connect one end of a 2.5-meter long 4P4C dedicated wire to the socket of the expansion microphone and the other end to the speakerphone EXT1.

2. Connect one end of a 2.5-meter long 4P4C dedicated wire to the socket of the expansion microphone and the other end to the speakerphone EXT2.

3. Due to the host uses a high single point microphone.To achieve the best effect, the speaker should be facing the microphone directly in front of the microphone. The direction of the microphone is the same as that of the nameplate.

4. The expansion microphone has mute switch and status indicator. The indicator is green when it works normally, and red when mute.

Note:In order to properly use and protect the expansion microphone, it is necessary to plug and unplug the expansion microphone connection and install the expansion microphone without power.
